

*Mechanicsville Branch Library — Mechanicsville, Virginia*

The Mechanicsville Branch Library was constructed for Hanover County in Mechanicsville, Virginia. The 16,170 square foot building was constructed from structural steel, block and brick, storefront, aluminum curtain wall and metal wall panels. Project highlights include an open, second level clerestory; curving curtain wall assemblies and an 18' dome. The Architect on this project was Lukmire & Associates from Arlington, VA.
